

PD ACADEMY

LEAP AHEAD IN YOUR PROFICIENCY WITH PERITONEAL DIALYSIS

Advance your nephrology education by enrolling in the PD Academy, a comprehensive peritoneal dialysis (PD) training program for doctors and nurses. The PD Academy curriculum was developed by an expert faculty from the Southeast Asia Peritoneal Dialysis Network.

Endorsed by:

Join us now to enhance your PD skills and
build your confidence in patient care!

At a glance

- An extensive, **modular training curriculum** for PD, tailored for both doctors and nurses
- **Curriculum designed by a faculty of leading PD experts** to take you from the fundamentals of PD to local leadership in managing a PD unit
- **Three program tiers adapted to your learning needs** and level of expertise

Learn the basics of PD and perform it with confidence

Implement high-quality PD, establish new services, and collaborate with regional colleagues

Develop a passion for driving excellence in PD; mentor and encourage peers and stakeholders in your area

Who should apply?

PD Foundations

- Doctors or nurses who are new to PD
- Dialysis nurses with minimal experience in PD
- Trainees in Nephrology

PD FOUNDATIONS

PD Empower

- Doctors and nurses who have completed the PD Foundations program
- Doctors and nurses with experience in PD and currently looking after ≥ 20 PD patients
- Doctors and nurses who want to further their skills and achieve high-quality outcomes in PD

PD EMPOWER

PD Advocate

- Doctors and nurses who have completed the PD Foundations and Empower programs
- Doctors and nurses already running a successful PD program with outcomes that are comparable to and recognized by international standards
- PD leaders with a passion to drive PD development in their region and a desire to help other centers improve their PD programs

PD ADVOCATE
